The Olhausen Story

My brother Butch and I have a long family history in the billiard business that began more than 70 years ago when our grandfather got tired of growing corn in Hartley, Iowa and sold the farm so he could buy a pool room in Hartley that was for sale. Our dad, Jerry Olhausen, learned a lot about pool tables before he left Hartley and he continued the family's involvement in the billiard industry when he started his own billiard sales and service business in Las Cruces, New Mexico in 1953. Both Butch and I worked for my dad while we were growing up in Las Cruces, but it wasn't until we moved to California that our role in the Olhausen legacy would truly begin.

More than thirty eight years ago, Butch and I arrived in San Diego, California with a shared passion for billiards that would become the foundation for the billiard manufacturing business that Butch and I built together in San Diego. In 2006, that same passion brought the company to Portland, Tennessee, where my sons Larry, Colby and Jeffrey are now helping me run the largest pool table manufacturing facility in the world. Our new state of the art factory occupies over 250,000 square feet and even though our capacity to produce pool tables has greatly increased, our constant dedication to quality has not changed. Every Olhausen pool table is still built to order.

Manufacturing pool tables in California for more than 30 years put Olhausen Billiards in the forefront of environmental awareness and the move to Tennessee did not change that. We designed our new factory to be not only the largest producer of billiard tables in the industry but also one of the most environmentally friendly manufacturing facilities found anywhere in the world. In terms of sustainability, the relocation to Tennessee has put Olhausen Billiards much closer to both its lumber suppliers and its distributors. From our energy efficient factory to our continued use of the latest technology available, Olhausen is building pool tables using methods that are best for our customers and best for the environment as well.

Since 1972 Olhausen has manufactured more than 500,000 pool tables using "American Made" products in the design and construction of these tables. Our tables have become known in the industry as the "Best in Billiards" and I am very proud of that. We offer every type of pool table imaginable from ornate pieces of furniture to professional tournament quality tables. No matter how they look on the outside, every Olhausen pool table has the same durable, award winning core on the inside...and that is why Olhausen Billiards can provide you with the highest quality pool table on the market and a true lifetime warranty from our family.

Sincerely,

Donny Olhausen, CEO

OLHAUSEN®

BEHIND THE NAME

Olhausen® quality control far surpasses industry standards. We use the highest quality diamond, honed slate, and every piece of this premium stone is checked for flatness, smoothness, and accurate bolt-hole locations.

“meticulously sanded to perfection.”

The heart of an Olhausen® - the frame - is carefully assembled on a specially designed bench. After painstaking frame construction, all the moldings are attached by hand and are then meticulously sanded to perfection.

Olhausen® employs the use of many state-of-the-art CNC (computer numerical control) machines to build its quality pool tables.

Olhausen® insists upon the highest grade hardwoods like Hard Rock Maple and Northern Oak. To ensure lumber quality, we even require suppliers to code each mill run. It's extra work, but it makes for a better table.

“state-of-the-art.”

Olhausen® craftsmen are specially trained to operate computer controlled and precision machinery. This high-speed machine, which was designed by Olhausen® engineers, ensures a perfect pocket fit on every rail.

“compliment your home's décor.”

With subtle details - like optional Abalone and Mother-of-Pearl inlaid sights, you would think you were purchasing a piece of fine, Old-World furniture that will be a part of your family for generations. And you would be right.

In addition to our full line of standard finishes, we can create a custom finish to meet your individual needs. Simply bring a sample to your nearest Authorized Olhausen® Dealer, and they'll have Olhausen® build you a table to compliment your home's décor.

*“Our customers love the story of Olhausen® because we’re in small town USA... Family owned,
Built in America, Guaranteed for life. Pretty easy decision from there!”*

Charlie Reed - Stansfield Vending - La Crosse, WI

When something is as well-made, from such high-quality materials as an Olhausen pool table, you’d expect the company to stand behind it. And Olhausen does-with a nationwide network of Authorized Dealers, chosen as carefully as the wood and slate that go into the tables. Olhausen also backs up all tables equipped with American-made Accu-Fast® cushions with a lifetime warranty signed by Donny Olhausen. This warranty means, among other things, that your Olhausen table may outlive you. But don’t let that depress you. Just get out there and play.

*“Very few industries feature a brand offering the highest quality with prices for everyone.
Billiards has Olhausen® - the pride of our stores & the class of our business.”*

Jay MacDougall - Recreation World Home & Billiard - Edmonton, AB

If you have any questions or comments about your table, you can pick up the phone or stop by the factory and talk to an Olhausen. A real, honest-to-goodness Olhausen. In fact, they’d like to hear from you. Because chances are, you’re going to have something nice to say about that gorgeous piece of furniture with their name on it.

“When our customers ask for quality we say buy American, buy an Olhausen®!”

Brian Mowery - Family Recreation Products - Bel Air, MD

One final thought: The Olhausen family are real people with true American family history and they carry that along with their name and in their pool tables.

“Olhausen® is absolutely the best quality pool table made...period!”

Robert Baxter - Games & Things - Atlanta, GA
