Dana-Farber Cancer Institute

From achieving the first remissions in cancer with chemotherapy in 1948, to developing the very latest new therapies, Dana-Farber Cancer Institute is one of the world's leading centers of cancer research and treatment. It is the only center ranked by U.S. News and World Report's Best Hospitals in the top 6 for both adult and pediatric cancer care, and has been the top ranked cancer center in New England for 20 consecutive years.

Dana-Farber sits at the center of a wide range of collaborative efforts to reduce the burden of cancer through scientific inquiry, clinical care, education, community engagement, and advocacy. Dana-Farber/Brigham and Women's Cancer Center provides the latest in cancer care for adults; Dana-Farber/Boston Children's Cancer and Blood Disorders Center for children; and Dana-Farber/Harvard Cancer Center unites the cancer research efforts of five Harvard academic medical centers and two graduate schools.

Dana-Farber is dedicated to a fully integrated cancer research and patient care model, which allows the Institute to focus on translating the results of its discoveries into new treatments for patients locally, and around the world.

The Jimmy Fund

The Jimmy Fund solely supports the fight against cancer at Dana-Farber Cancer Institute. Since its founding in 1948, the Jimmy Fund has raised millions of dollars through thousands of community efforts to help save lives and give hope to cancer patients around the world. An official charity of the Boston Red Sox, Pan-Mass Challenge, Massachusetts Chiefs of Police Association, and Variety Children's Charity of New England, the Jimmy Fund is an American favorite.
