PHASOR

M A R I N E

Powered By Kubota

Phasor Marine, has begun delivering EPA Tier IV compliant marine generators. These machines are not utilizing EPA flex credit engines as are other marine generator manufacturers, which is illegal. The Kubota diesel engines utilized by **Phasor** are either Tier IV Final or EPA Tier IV Marine Certified up to and including the K4-30.0 kw model. All standard machines continue to utilize the Kubota or John Deere diesel engines coupled to the electrical ends. These engines approved for use with Bio-Diesel B5. New for the 2014 model year are two Ignition Protection Certified models rated at 4.5 kw and 7.0 kw operating at 1800 rpm. These machines are certified for use in gasoline powered boats. All **Phasor's** continue to offer a 5 year limited warranty.

K3 - 9.5 KW

Questions to ask before ordering your sectional barge:

1. Will my barge be designed by experienced engineers?
2. Will my barge be built to my exact requirements?
3. Will my complete satisfaction be guaranteed?

If it's important that the answer to these questions is "YES", then contact us at:

RPS Barge Co.

Built to your requirements.
Built to last. Guaranteed.

Manufacturing Cost Effective,
Polyurethane Foam for
Flotation and Insulation
in the Marine Industry
(MIL-P-21929C Compliant).

Uses:

- Greatly extend the life of otherwise ready to retire barges, boats, docks, and more...
- Save tens of thousands of dollars over replacement or repair costs.
- Insulate spaces requiring efficient temperature control (i.e. living quarters, storage to prevent freezing or storage for cooling/freezing).

Installation:

- Our installers will come to you.
- We also offer do-it-yourself training and sell the necessary equipment for your business to install.

Modular Plastic Pontoon

The Best Idea Since the Indian Canoe

36 and 24-inch Diameter Sizes

Wilson pontoons are used for pontoon boats, houseboats, barges, work boats, party boats, pumping stations—they're perfect for any application that uses pontoons.

- Molded from sturdy, medium density polyethylene (MDPE)
- Heavy-Duty: filled with closed cell polyurethane foam
- Modular: separate bow, middle, and stern modules allow for configurations of the most popular application sizes
- Maintenance Free: bottom painting recommended if left in saltwater full time. Otherwise, just pressure wash to clean.
- UV protected

WOOD DOCK HARDWARE

MADE WITH 1/4" HIGH STRENGTH STEEL THEN HOT DIPPED GALVANIZED

Outside Corner End (H-OCE) is used at the ends of fingers, ends of dock or for swim platforms.

H-OCE Ship#7 \$12.98

Outside Corner Male (H-OCM) has one 1/2" tab and a hole for a 3/4" bolt or B-PIN. Would be used with an Outside Corner Female (H-OCF) or with a Single "T" Female (H-SF). H-OCM Ship#8 \$18.71

Inside Corner (H-IC) has slots and can be used with 1-1/2" - 3" thick wood. The inside corner sandwiches the wood between the opposite outside corner, keeping bolts from burying themselves in the wood. A corner gusset gives the unit a lot of strength and helps from racking the dock. H-IC Ship#7 \$13.95

HARDWARE HEIGHT
5"

HARDWARE THICKNESS
1/4"

Outside Corner Female (H-OCF) has two 1/2" tabs and a hole for a 3/4" bolt or B-PIN. Would be used with an Outside Corner Male (H-OCM) or with a Single "T" Male (H-SM). H-OCF Ship#9 \$22.23

Single "T" Female (H-SF) has two 1/2" tabs and is used with an Outside Corner Male (H-OCM) or a Single "T" Male (H-SM). Both male and female singles can be bolted to the side of a dock to make finger attachments. They can also be bolted to seawalls to make ramps.

H-SF Ship#4 \$13.04

Single "T" Male (H-SM) has one 1/2" tab and is used with an Outside Corner Female (H-OCF) or Single "T" Female (H-SF).

H-SM Ship#3 \$9.22

WOOD DOCK HARDWARE

MERCO MARINE™

Merco Marine is a manufacturer of boat dock building components and accessories. We were established in 1979. Everything we manufacture is made in the United States, with US Steel, and US workers.

The products shown here are only a small portion of the over 2000 items that we manufacture and keep in inventory for boat dock building and marinas.

For a complete list of our products check us out on the web at www.mercoboatdocks.com or give us a call at 304-737-3006. You can also request a free copy of our 65 page catalog.

Merco Marine can provide simple parts and pieces for your small pond or lake dock to build on site, or we can build entire marinas from start to finish.

WOOD DOCK HARDWARE WWW.MERCOMARINE.COM 1-304-737-3006

WOOD DOCK HARDWARE

MADE WITH 1/4" HIGH STRENGTH STEEL THEN HOT DIPPED GALVANIZED

Washer Plates (H-W) are used mostly with Angles (H-A) and Cleat Angles (H-CA). The square hole in the plate keeps the carriage bolts from turning when the bolts are tightened.

H-W Ship#1 \$1.24

Angles (H-A) used to hold all cross stringers to side stringers using a Washer Plate (H-W). The wood is sandwiched between the steel and creates a solid corner. H-A Ship#2 \$3.45

Backup Plates (H-B) are used with Single "T" Males (H-SM) and Single "T" Females (H-SF) for additional strength and to keep bolts from pulling through the wood. H-B Ship#2 \$3.30

Cleat Angles (H-CA) have slots for various sizes of cleats. The cleat angle is bolted to the side stringer using a Washer Plate (H-W). The cleat is then bolted through the deck into the cleat angle. This keeps the cleat from pulling out of the deck.

H-CA Ship#2 \$4.88

HARDWARE THICKNESS
1/4"

Inside Corners/3" I.D. Pipe Holder (H-IC3) has a 3" I.D. pipe holder welded in place. It can be used to replace a regular inside corner. It will accommodate a 2" I.D. pipe.

H-IC3 Ship#13 \$26.31

3" Pipe Holder (P-3) can bolt to the side stringer and uses 2" standard pipe to anchor docks in place.

P-3 Ship# 6 \$16.41

3" Pipe Holder (H-OCEP3) outside corner end with a pipe holder welded to the end. 3" opening for 2" pipe. Save money by getting 2 pieces of hardware in one.

H-OCEP3 Ship#11 \$23.19

We also stock

PILE GUIDES

HOOP PILE HOLDERS

Our convertible Hoop Pile Holders have 3 basic pieces, a deck plate, a hoop and a roller assembly. This allows you to have a hoop pile holder the way you want it, whether it be a permanent hoop, a removable hoop or a hoop with a roller. You can use the roller assembly on the deck plate or bolt it directly to the dock. All parts are hot dipped galvanized. Add a UHMW Roller to any assembly as shown at the bottom of page 19. All assemblies include a deck plate, hoop, roller assembly, and 6 carriage bolts. Fasteners required to bolt to you dock sold separately on page 28.

Assembly Number	Assembled Weight	□	L	L2	W	BH	BM	Hoop Number	Hoop Weight	Deck Plate Number	Deck Plate Weight

NOTES: ALL DIMENSIONS NOMINAL. DIAMETER TOLERANCE IS +/- 1/4". □ = DIAMETER

□ = DIAMETER

STRONGER DESIGN!

Our mounting plates are 5" x 2" x 3/8" which are welded to the hoop and are used to mount the hoop to the deck plate. Our mounting plates are 33% thicker and 25% wider than most other hoop mounting plates on the market.

An easy way to determine the diameter of your existing pipe or piling is to measure the circumference and divide by 3.14. We've done the math for you with our Circumference chart to the left.

Part Number	Assembled Price	Hoop Number	Hoop Price	Deck Plate Number	Deck Plate Price

MARINE HEAT™

FREE HEAT FROM YOUR ENGINE'S CLOSED COOLING SYSTEM!

These powerful marine bus heaters provide from 28,000 to 40,000 BTU (up to 80,000 in dual installations) simply by plumbing (5/8" heater hose) into your engine's cooling system. 12V or 24V, 3-speed centrifugal blowers ensure even heat circulation. Heavy-duty, non-corrosive, glass-filled nylon housing. Choose flush mount or ducted models. Heaters should be installed horizontally.

Flush mount kits include heater, switch with mounting plate, and 3-way wire harness. Ducted models include heater, 3" vent hose, directional louvers, switch with mounting plate, and 3-way wire harness.
