ALL ABOARD

Welcome aboard the Cape May-Lewes Ferry! On behalf of all of us at the Delaware River & Bay Authority, I'd like to thank you for traveling with us today across the beautiful Delaware Bay. We're committed to providing our guests with a safe and convenient way to travel. We also want to ensure that your time spent with us is fun, enjoyable and memorable.

I'd like to take a second to remind you of our COVID-19 precautions. Please wear a face mask and stay socially distanced from anyone not in your traveling party. Also pay attention to the directional signage aboard the vessel to help control the flow of traffic. This remains a fluid situation, and we continue to adjust and adapt our operations as guidelines change and conditions dictate. Circumstances are improving, but we can't let our guard down. We must continue to do our part to beat this virus.

I have some Ferry-related news to share with you. Earlier this year, we retained the naval architecture and marine engineering firm Elliott Bay Design Group of Seattle, Wash., to lead a team of consultants providing planning and analysis that will eventually lead to a design concept for new vessels. During the initial phase, EBDG's primary assignment is to review, revise and redevelop the most recent Ferry Marine Master Plan, which was produced in 2008. The plan will rely on input from Ferry staff, interested community partners, industry experts and you, our customer.

Another piece of exciting news is the combined re-powering and renovation work on the *MV New Jersey* at Caddell Shipyard in Staten Island, N.Y. The old World War II-era

Fairbanks-Morse engines were replaced, and new reduction gears and generators were installed. We also added technology that drastically reduces the amount of atmospheric pollutants we emit.

Other significant work included water-blasting and repainting the entire exterior of the vessel

(including the pilot house), replacing all windows, renovating and modernizing the 02 (passenger cabin) deck galley area, sandblasting and painting the underwater hull, and fabricating new smokestacks. After seven months, the *MV New Jersey* will return just in time for the busy summer season.

A way to truly "take a break from the ordinary," the Cape May-Lewes Ferry celebrates diversity in travel. There's so much more to Cape May, Lewes and Rehoboth Beach than just sand, surf and sun—and the Ferry puts you right in the middle of it all. We're proud of our heritage and our role in the region's growth.

If you have a question or need something to make your trip better, please don't hesitate to ask. Our crew is ready and willing to help. When traveling with us, you're like family. So sit back, relax and enjoy the trip.

On behalf of the marine crew and staff, I'd like to again thank you for including the Cape May-Lewes Ferry in your vacation plans. We hope you enjoy your visit to the beautiful Twin Capes region.

Please stay healthy and safe. We hope to see you again soon!

FOR OUR PASSENGERS

As we sail into a summer that sees us returning to something resembling a sense of normalcy, we want you to know that we're still doing our part to ensure a safe and healthy travel environment for all our passengers. At the time of publication, we're continuing with a heightened emphasis on already thorough cleaning and maintenance procedures. Masks remain required upon exiting your vehicle (unless eating or drinking), and we continue to ask that you please maintain a safe social distance from those not in your traveling party.

This remains a fluid situation, and we'll continue to adjust and adapt our operations as guidelines change and conditions dictate.

For the most up-to-date information on our COVID-related procedures, visit us on the web at CMLF.com. As always, we appreciate your continued support, cooperation and understanding.

While we remain vigilant in our commitment to a safe traveling experience, we're excited about the prospect of a summer full of laughs, drinks at the Lido Bar, and relaxing rides across the Delaware Bay. We look forward to seeing you aboard and connecting with the people and places that make Ferry rides so memorable.

The Ferry operates year round, with daily departures from Cape May, N.J., and Lewes, Del. For the latest departure information and COVID-19 safety measures, visit CMLF.com.

TWO-WHEELED THRILLS

There's nothing more exhilarating than setting out on a biking adventure on a sunny day. And the scenery from the trails, bike lanes and boardwalks of the Twin Capes region is downright dazzling.

Biking the boardwalk
in Ocean City, N.J.

BIKE THE BOARDS

Cape May and Sussex Counties have some of the most colorful boardwalks you'll find anywhere, making them great places to start off your day with a rise-and-shine bike ride. Cape May's nearly two-mile span of paved promenade is open to riders from 4 a.m. to 10 a.m. In Cape May County, bikes are welcome on the Wildwoods boardwalk from 5 a.m. to 11 a.m. weekdays (10:30 a.m. weekends), and from 5 a.m. to noon in Ocean City. Cruise Rehoboth Beach boardwalk from 5 a.m. to 10 a.m.

CAPE MAY AND LEWES

Electric bikes can go as fast as 20 miles per hour and have enough battery life to last 50 hours. Rentals are available from kiosks located at both the Cape May and Lewes terminals of the Cape May-Lewes Ferry. Save \$18 at **Pedego Electric Bikes** when you purchase a \$90 discount package that combines a round-trip ferry ticket and bike rental. 998 Kings Hwy., Lewes; 110 Park Blvd., West Cape May; pedegoelectricbikes.com.

CAPE MAY COUNTY

Pedal at your own pace and enjoy the view on the scenic road that runs the entire five-mile length of the Wildwoods (North Wildwood, Wildwood and Wildwood Crest). North Wildwood has a dedicated "bikes only" lane, as do the picturesque towns of Avalon and Stone Harbor.

A bike lane on **Sunset Boulevard** connects the city of Cape May with Cape May Point State Park and the Cape May Lighthouse—a family-friendly ride of more than seven miles. Or you can make a day of biking portions of the 46.7-mile Cape May County shoreline. The loop begins and ends at Cape May Lighthouse. Highlights include Stone Harbor Bird Sanctuary and Cape May Nature Center.

SUSSEX COUNTY

Right across the street from the Cape May-Lewes Ferry Terminal is a bike trail that will bring you into the heart of downtown Lewes in only 1.6 miles. Or head to **Cape Henlopen State Park**, where five trails with distinctive characteristics await exploration. The Lewes section of the park is connected to the Rehoboth Beach section by Gordon's Pond Trail, an easy 3.2-mile ride on fine crushed gravel with an elevated boardwalk.

Another path that connects the two resort towns is the five-mile Junction and Breakwater Trail. Riders are rewarded with stunning ocean views and historic sites like World War II observation towers that were part of an important coastal defense system, along with ammunition bunkers built into the sand dunes. There's also plenty of natural beauty— forests, farms, dunes and coastal marshes.

For a quick jaunt, take the sand-packed, 0.6-mile Salt Marsh Spur, the shortest trail in Cape Henlopen State Park. What it lacks in length, it makes up for in plant and wildlife

encounters. You can also take the Bike Loop, a three-mile circuit that passes through the beach, Nature Center, observation tower and Fort Miles Historic Area, a former World War II military base situated among the dunes. Or ride through woods and tidal marsh to the Great Dunes conclusion of the 2.5-mile Walking Dunes Trail. **TCT**
