Canon U.S.A., Inc. is honored to be named Long Island Business News' 2021 Readers Ranking for the Best Office Building in Long Island. As a leader in digital imaging solutions, Canon opened its new headquarters in February 2013 and continues to realize growth, oversees the company's operations in North, Central and South America. Located off the Long Island Expressway and near the technology corridor of Route 110, the headquarters features modern amenities and a 52-acre campus.

Measuring more than 500 feet long and nearly 300 feet wide, the building reflects Canon's strong commitment to environmental sustainability. "One Canon Park" has been awarded LEED® Gold certification, a recognition for the design, construction, operations and maintenance of high-performance green buildings. The facility stands as a model for environmental stewardship and innovation, and is the largest commercial property on Long Island to achieve this level of LEED.

The grounds have an open, campus-like feel with plenty of green space, a walking trail and two retention ponds. Within the five-story building (plus lower level), employees enjoy a state-of-the-art learning center, cafeteria, fitness center and other amenities.

As always, Canon aims to be a good corporate citizen within the community and will continue fostering relationships in the surrounding area.
